

C-130 Ramp Runner Load Trailer

Manufactured by.....

blue aerospace
A **HEICO** COMPANY

Blue Aerospace and United Aeronautical have teamed up to offer a new alternative for C-130 loading operations. Developed from the

former MAFFS trailer system and approved by NATO, Ramp Runner offers significant upgrades over traditional cargo loading systems.

Ramp Runner Advantages:

- ✓ 25% of the cost of current loader options while being 65% lighter
- ✓ Capable of up to 7° tilt
- ✓ Multiple tongue load positions (center or offset for better visibility)
- ✓ LED lighting for safe & easy night operations
- ✓ Fully NATO approved
- ✓ Can be used for other aircraft (i.e. C-17 and C-5 loading)

Ramp Runner Specs

Weight:

- 9,800 lbs. - Trailer
- 260 lbs. - Optional Trailer Extension (FWD)
- 375 lbs. - Optional Trailer Extension (AFT)
