

The Blue Aero Repair Services Advantage

1 One Stop Shop

Blue is partnered with over 100 MRO's vetted for the best mix of quality, turn time and price. We streamline all interaction by managing the entire repair cycle as the customer's a single POC so they can "fire and forget"

3 Quality Oversight

We approve and provide quality oversight of each SOR used, ensuring flow down of all customer quality requirements

7 Real-time ERP

Our customers can access live status tracking and reporting on-line via Blue's website (see later slide for more details)

4 Power of Volume

Blue leverages the strength of 1,000+ LRU's under repair at any given time from 30+ countries to drive down costs for all customers

8 Culture

We are an engaged, creative and reliable partner constantly seeking ways to add value to our customers as their "virtual employee"

2 Compliance Expertise

Our ITAR and customs clearance experience ensures a smooth flow of goods and technical services between customer and SOR.

5 Reduced TAT

Blue mitigate delays in return of LRUs by stocking kits of commonly needed components

6 Personalized Service

Our Worldwide customers each have dedicated staff assigned to service their account or program
